Attn: Bart

October 21, 2005

Bart,

I have to compliment you on the quality of your work. Since you revamped our web site at [www.artcal.com](http://www.artcal.com) not only do we get much more traffic but we can tie the increase directly to new sales. We have received inquiries from throughout the United States and Canada.

We have sold our Floor Graphics to businesses as far away as Florida. We've even just completed an order for the US Army.

We believe we would not have received this business without the high search engine rankings achieved by NTech.

Thank you for putting us on the forefront.

Wilfred Myers  
President
